

Environmental Policy

TCi (GB) Ltd maintains an Environmental Policy to be consistent with the purpose and context of the organisation. It provides a framework for the setting and review of environmental objectives in addition to commitment towards the following:

- Protecting the environment, including the prevention of pollution
- Sustainable resource use, climate change mitigation, protection of biodiversity and ecosystems
- Conforming to applicable legislative, regulatory, compliance and client's obligations
- Continuous improvement to the integrated management system and to enhance environmental performance by promoting sustainable development. In partnership with its stakeholders by conserving energy, materials and resources through minimising consumption, maximising efficiency and effectively managing waste
- Preventing pollution through the implementation of robust operational controls and reducing the pollution risks associated with the activities of the business
- Supply chain management to encourage suppliers to adopt environmentally sound practises
- Exploiting opportunities to reduce CO² emissions generated by business activities

TCi recognises the importance of environmental issues. Throughout its commercial activities and operations, it is committed to fostering the preservation and protection of the environment and promoting sustainable development. TCi (GB) Ltd has produced environmental objectives which relate to this policy, these objectives can be found within document ER04 Environmental Objectives.

The Board of Directors are responsible for providing a comprehensive framework to support line management in its environmental obligations. This includes, but is not limited to the following:

- Control of relevant documentation;
- Supply chain management ;
- Inclusion of sustainability principles in any design, procurement and operational activities;
- Environmental performance monitoring through audit and review;
- Training, development and mentoring;
- Dissemination of information, including legal requirements, procedure, statistics, reference material and audit recommendations;
- Maintaining current Environment Agency licences where applicable;
- Environmental incident investigation;
- Reviewing this policy to ensure that environmental issues arising from new developments and changes to legislation are properly considered.

This policy is implemented through the adoption of ISO 14001:2015 accreditation, which is integrated throughout all sectors of the business.

This policy is communicated to all interested parties as well as being made available to the wider community through publication on the TCi (GB) Ltd website, company noticeboard and intranet.
