

Environmental Policy

TCi (GB) Ltd maintains an Environmental Policy to be consistent with the purpose and context of the organisation. It provides a framework for the setting and review of environmental objectives in addition to commitment towards the following:

Reducing our global carbon footprint

- Exploiting opportunities to reduce CO² emissions generated by business activities and become scope 1&2 net carbon neutral by financial year 2022/23.
- Aim to reduce the carbon footprint and CO₂e of operations throughout the business by assessing and evaluating operations, supply chain and business activities.

Procurement of materials and services

- Make every effort to encourage good environmental practice throughout the supply chain including reduction of waste, plastics and packaging, prioritising sustainable materials and recycled products where possible.

Fleet Management

- Reduce the impact of fleet vehicle operation across the company, in proportion with business growth

Waste Management

- In partnership with its stakeholders by conserving energy, materials and resources through minimising consumption, maximising efficiency and effectively managing waste
- TCI strives to maximise recycling and achieve zero waste to landfill.

Conservation and Environmental Management

- TCI sets out to minimise negative impact on the environment and enhance biodiversity with opportunities to incorporate wildlife in developments. TCI will work closely with organisations to ensure this is possible.

Outward Activity

- Considering the impact of TCI on the wider community, leading by example and being seen to promote sustainability in all areas of the business

TCi (GB) Ltd is committed to conforming to applicable legislative, regulatory, compliance and client's obligations and continuous improvement to the integrated management system and to enhance environmental performance by promoting sustainable development.

TCi recognises the importance of environmental issues. Throughout its commercial activities and operations, it is committed to fostering the preservation and protection of the environment and promoting sustainable development. TCI (GB) Ltd has produced environmental objectives which relate to this policy, these objectives can be found within document I09 Environmental and Quality Objectives. These objectives are also displayed the TCI Sustainability Charter which has been signed by all management employees.

The Board of Directors is responsible for providing a comprehensive framework to support line management in its environmental obligations. This includes, but is not limited to the following:

- Control of relevant documentation;
- Supply chain management ;
- Inclusion of sustainability principles in any design, procurement and operational activities;
- Environmental performance monitoring through audit and review;
- Training, development and mentoring;
- Dissemination of information, including legal requirements, procedure, statistics, reference material and audit recommendations;
- Maintaining current Environment Agency licences where applicable;
- Environmental incident investigation;
- Reviewing this policy to ensure that environmental issues arising from new developments and changes to legislation are properly considered.

This policy is implemented through the adoption of ISO 14001:2015 accreditation and the North Devon Biosphere Business Partnership, which is integrated throughout all sectors of the business.

This policy is communicated to all interested parties as well as being made available to the wider community through publication on the TCI (GB) Ltd website, company noticeboard and intranet.
